TERRAIN Project Meeting No. 3

Sarajevo, Bosnia and Herzegovina

9 - 10 October 2025

INTERNATIONAL PROJECT Twinning and Engagement in net-zero tRanport tRAnsltioN - TERRAIN is funded by the Interreg IPA Adrion 2021-2027 Programme

<https://terrain.interreg-ipa-adrion.eu/>

Project partners:

LP - Centre for Research and Technology Hellas / Hellenic Institute of Transport (Greece)

PP2 Municipality of Berane (Montenegro)

PP3 City of Skopje (North Macedonia)

PP4 Regional Development Agency of Ljubljana Urban Region (Slovenia)

PP5 Municipality of Bologna (Italy)

PP6 University of Zagreb - Faculty of Transport and Traffic Sciences (Croatia)

PP7 Regional Development Agency South Banat (Serbia)

PP8 Municipality of Ioannina (Greece)

PP9 Ministry of Traffic of Canton Sarajevo (Bosnia and Herzegovina)

PP10 Durrës Municipality (Albania)

Associate partners:

City of Pančevo

National Center for Development of Innovation and Entrepreneurial Learning – Skopje

City of Ljubljana, Department for Environmental Protection

Project Objectives:

- Promoting sustainable mobility solutions to reduce traffic congestion, air pollution, and uncontrolled movement by motorized mean
- Creating Living Labs for co-design of sustainable mobility measures
- Promoting transnational cooperation in the field of sustainable transport
- Implementing pilot actions that will help cities transition to a more sustainable and climate-neutral transport future
- Promoting innovation and applying smart technologies in sustainable mobility
- Creating a "TERRAIN" center of excellence that will act as a collaboration platform for knowledge exchange on sustainable mobility in the Adriatic-Ionian Macro-Region

Based on experience exchange and co-design, it aims to properly guide and facilitate the cities of the Adriatic-Ionian Macro-region in their transition to sustainable smart urban mobility.

With the Centre for Research and Technology Hellas/Hellenic Institute of Transport (CERTH / HIT) as horizontal mentor of the project, 9 cities of the Programme area are involved in a three-year collaboration for experience and knowledge exchange, helping them to design zero-emission cities in terms of mobility according to EU directions.

The partnership includes entities representing 4 cities from the ERDF European countries of the programme, which are part of the "Climate-neutral and smart cities" (Ioannina - Greece, Bologna - Italy, Ljubljana - Slovenia, Zagreb - Croatia) and 5 cities from the IPA countries of the Programme (Sarajevo - Bosnia and Herzegovina, Berane - Montenegro, Pančevo - Serbia, Skopje - North Macedonia, Durrës - Albania), with expected high benefits.

The third partner meeting of the TERRAIN project was successfully held in Sarajevo, hosted by the Ministry of Traffic of Canton Sarajevo.

During the two-day event, partners discussed key topics related to **net-zero mobility**, the **exchange of experiences through TERRAIN twinning**, and the **progress of pilot actions** aimed at fostering sustainable urban mobility. The sessions also focused on **capacity building**, **policy change assessment**, and the next steps for scaling up project activities.

The second day featured a **study visit** highlighting Sarajevo's innovative mobility and public transport solutions — including a train ride to Pazarić exploring the role of rail in regional mobility, visits to **cycling infrastructure projects** in Novi Grad Municipality, **pedestrian-friendly urban zones** along Vilsonovo šetalište, and presentations on **fleet renewal** through new trams and trolleybuses. The visit concluded with a **ride on the Trebević cable car**, showcasing the link between sustainable tourism and transport connectivity.

A big thank you to our hosts and all project partners for their valuable contributions and inspiring discussions that continue to drive TERRAIN towards a net-zero urban mobility future.
